

370-360 BC

Alexander II was King of Macedonia
His father was AMYNTAS III
His mother was EURYDIKE, daughter
of SIRRHAS.

3 sons & 1 daughter (EURYNOE)

ALEXANDER II King 370-368 BC

PERDIKKAIS III King 365-359 BC

PHILIP II King 359-336 BC

370 BC

1912 Dates J-BK

Thebans under EPAMINODAS
invade Peloponnesus 1st time
369 BC 2nd time
367 BC 3rd time.

370 BC

DIOCLES of EUBOEA, embryologist
EUDOXUS of CNIDUS, astronomer

C 370 → 300 BC

Greek Cal.

METON's system was later
inspired by CALLIPPOS of CYZICUS
whose cycle four of those of METON

4 x 19 yrs less 1 day

370-300 BC

Enya Butt

Calippus period

Consisted of 4 x 235 or 940 lunar months!

Divided 7 hours total of 440 hours and 50 full months
Calippus adopted 441 hours and 499 full days thus reducing the length 74 metonic cycle by one day. The day interval becomes

drop's 365.25 m
from 440 m
The 25% change
from 440 m

$$\text{drop} = \frac{365.25}{25\%}$$

$$657.25 \approx 365.25 + 292.00$$
